

Theratechnologies Named Recipient of the 2021 ADRIQ Innovation Award in the "Life Sciences" Category

November 26, 2021

MONTREAL, Nov. 26, 2021 (GLOBE NEWSWIRE) -- Theratechnologies Inc. (Theratechnologies, or Company) (TSX: TH) (NASDAQ: THTX), a biopharmaceutical company focused on the development and commercialization of innovative therapies, is pleased to announce that it was awarded of the 2021 Innovation Award in the "Life Sciences" category at the 31st ADRIQ Innovation Awards Gala held on November 25, 2021.

Every year, the ADRIQ (Association pour le développement de la recherche et de l'innovation du Québec) gala rewards Quebec-based companies for leadership in innovation in their respective field.

At the beginning of 2021, Theratechnologies received the United States Food and Drug Administration's "Fast-track" designation for TH1902 as a single agent for the treatment of patients with advanced and recurrent solid tumors expressing the sortilin receptor and refractory to standard treatments. TH1902 is the lead peptide-drug conjugate derived from the SORT1+ Technology™ in oncology.

"It is quite rare to obtain the "fast-track" designation this early in the drug development process and this was achieved through spectacular preclinical data. We are very proud of this achievement and look forward to the future with great hope for patients," said Mr. Paul Lévesque, President and Chief Executive Officer of Theratechnologies.

About TH1902

TH1902 combines Theratechnologies' proprietary peptide to docetaxel. This peptide-drug conjugate is the lead candidate stemming from Theratechnologies' SORT1+ Technology™ in oncology.

The Canadian Cancer Society and the Government of Quebec, through the Consortium Québécois sur la découverte du médicament (CQDM), contributes a total of 1.4 million dollars towards some of the research currently being conducted for the development of Theratechnologies' targeted oncology platform.
